

THE SALT AND LIGHT FOUNDATION

Individual Grant Guidelines

Applicants may submit an introductory letter giving a brief overview of the need before submitting a request for funding. This overview will help determine the potential of funding by the foundation.

In applying for an individual grant, the following information should be included:

- Summary statement.
- The specific purpose of the funds requested.
- The amount requested.
- A detailed copy of how the money will be spent.
- A statement advising how the funds will further the goals and support the mission of the Salt and Light Foundation.
- Names, titles and telephone numbers of three professional/personal references.

After the above materials are received, if your request is under consideration, you may be contacted to arrange an online interview.

The general policy of The Salt and Light Foundation is to make individual grants to students, teachers, parents, grandparents and individuals involved in and in support of “intentional Christian discipleship” of the next generation. Funding for initiatives within other 501(C) (3) organization or churches, should be submitted using the Salt and Light Organizational Grant Guidelines.

Foundation grants are generally made once a year and the deadline for receiving proposals is November 15th. However, the urgency of individual grant applications will be taken into consideration.

All requests, questions and correspondence should be submitted electronically and directed to:

Dr. Jane S. Cahaly, Ed.D
